GL Summer 2 MOCK PERFORMANCE REPORT

Name: Aiden (S)

Date of Mock: 18/07.26

Centre: Buckinghamshire

Student ID: 3

Mock Paper Code: Y5_001

© 2025 Exam Report Generator. Report Generated by The Tutoring Company

Introduction

Dear Parent,

Thank you for participating in the Mock Exam hosted by Tutoring Company LTD. This report provides detailed results from the mock exam.

It's important to note that the mock exams at Tutoring Company LTD are designed to help students, parents, and tutors prepare effectively for the real exam. The mock exam mimics the format and difficulty of the actual test and aims to challenge even the most capable students.

1. Statistics: We provide statistical evidence, including topic-wise chart analysis, demonstrating that students who repeat mock exams show an improvement of up to 80%.

2. Marks: This report includes the student's marks, along with a breakdown of correct, incorrect, and unanswered questions, along with counts.

3. Overall Report: While there is no fixed minimum score required for success (e.g., 90% may not guarantee admission, but 60% might), students who attend mock exams are typically well-prepared. It's important to note that even students with lower rankings may still gain entry to their first-choice school.

4. Number of Questions: Exposing students to a variety of question types during the mock exam will benefit them. In the real exam, students may face up to 100 questions within 50 minutes, though some exams may exceed what a student can complete

within the given time frame. Completing all questions is not a requirement to succeed in the real exam, but the more questions answered, the higher the chance of success.

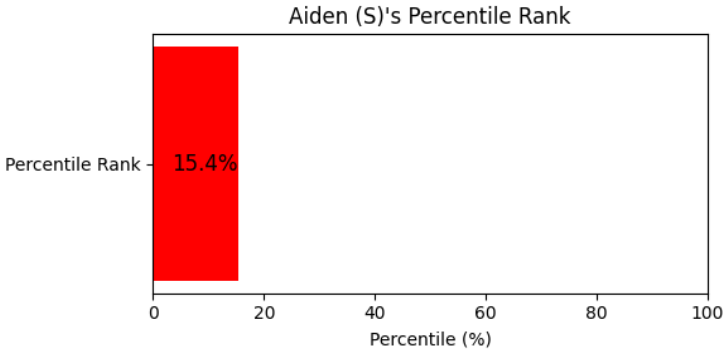

Please note the following:

We appreciate you choosing Tutoring Company LTD and look forward to supporting your child's progress.

Key Facts

Total Questions:	137
Total Raw Score of Aiden (S):	35 / 137
Incorrect:	45
Unanswered:	57
Percentage:	25.55%
Rank:	12
Highest Score in this mock sitting:	107
Lowest Score in this mock sitting:	34
Standardised Score:	-1.44

Aiden (S)'s score of 35 is below the average of 66.8. With focused effort in key areas, there is great potential to improve.

These statistics shows how Aiden (S) is doing compared to the group. A score above average means they are outperforming most students, while a score below average shows areas that need improvement. The goal is to aim for the top scores over time.
